Hey why don't we go
Try and escape this inferno
The chaos is coming close
Don't know where we'll be tomorrow

When the storm is coming I come running
To keep you sheltered from the rain
When the sun is beating down a shadow's found
You're safe here in the shade
Hey Hey
You're safe here in the shade
Everyday

Where we are going
The best things in life are free
There ain't no worries now
No more catastrophes

When the storm is coming I come running
To keep you sheltered from the rain
When the sun is beating down a shadow's found
You're safe here in the shade
Hey Hey
You're safe here in the shade
Everyday

When the storm is coming I come running
To keep you sheltered from the rain
When the sun is beating down a shadow's found
You're safe here in the shade
Hey Hey
You're safe here in the shade
Everyday
