When I Get Better

Trapt

When I get better
Will you welcome me with both your arms again
When I get better
Will you let me pay you back for all of it

You cleaned up every mess I made
Put out the fires I left to rage
You were out there fighting my battles
Now I gotta fight for you too

When I get better
Will you welcome me with both your arms again
When I get better
Will you let me pay you back for all of it
When I get better

When I recover the ground I lost
When I'm at peace with my darkest thoughts
When I've beat back
All of my demons
Not one of them left to hurt you

When I get better
Will you welcome me with both your arms again
When I get better
Will you let me pay you back for all of it
When I get better

I'm coming home
I'm so sorry I left you alone
I'm coming home
And together we're gonna grow old
I'm coming home
And I'm never gonna lie
No, I know I'm never gonna lie
For the rest of my life
I am gonna give you all of mine

When I get better
Will you welcome me with both your arms again
When I get better
Will you let me pay you back for all of it
When I get better
When I get better
When I get better
