

## ...Burn

## Trash Boat

I don't wanna be here  
Where? Anywhere  
Life is so unfair  
I just wanna take the easy way out  
It's never straight it separates  
I'll find my way on wooden grains

Hold me close, break my bones  
I'm surrounded and so alone  
Obvious and yet unknown  
I just want to be pure

Ignite the sky, are you watching?  
Watching heaven burn  
The light, it blinds  
Take it away, take it away

I know it's just a feeling  
It's there, everywhere, can you tell I'm scared?  
30 years now feels like such a waste  
Don't look away, meditate, saturate, acclimate

Hold me close, break my bones  
I'm surrounded and so alone  
Obvious and yet unknown  
I just want to be pure

Ignite the sky, are you watching?  
Watching heaven burn  
The light, it blinds  
Take it away, take it away

Ignite the sky, are you watching?  
Watching heaven burn  
The light, it blinds  
Take it away, take it away

Take it away, take it away  
Take it away, take it away  
Take it away, take it away  
Take it away, take it away
