

Don't Open Your Eyes

Trash Boat

I guess I've had better weeks, when I can say that dying in my
sleep would seem to be release
I thought better headspace came so easily to me but I feel fing
ers round my feet
Spending mornings sweating through my sheets

This is prison
I wish I didn't remember my dreams
Like my dreams remember me
Absolve me of everything
That I have done
Icy stare to summer sun

Conversations to calm me down
Revelations to bring me round
Everything will go my way this time around
Sit and listen to good advice; knowing me I'll need telling twi
ce
Nothing real to see so don't open your eyes
Talk with me
Cut right through this lethargy and sing
So we don't forget

This is prison
I wish I didn't remember my dreams
Like my dreams remember me
Absolve me of everything
That I have done
Icy stare to summer sun

Talk with me
Cut right through this lethargy and sing
So we don't forget
So we don't
Sing so we don't forget
Sing so we don't forget
Sing so we don't forget
Forget
Sing so we don't forget
