

Love, Hate, React, Relate

Trash Boat

It's funny what life brings
I never knew that anything could mean so much to me
Love is such a simple thing
I never wanted anything more than your company
When your legs gave way
I felt the strain
Please just stay
I just want your head back on my knee

I know you won't be waiting
Waiting for me
Heaven never entered my belief
That you are somewhere better
Better than me

When I picked you up I didn't know how
Hard it'd be to put you down
Rain is our persistent sound
Find bridges just to stop the water
A moments respire
It comes all around the other side

I know you won't be waiting
Waiting for me
Heaven never entered my belief
That you are somewhere better
Better than me
Better than me
Me
Better than me

Pleasure and pain
Are side by side
But most of the brain doesn't know what it's like
Nervelss and lame, I go through the motions
Call them by name rehearse my emotions
Joy, peace, guilt, release, love, hate, react, relate
Joy, peace, guilt, release, love, hate, react, relate
Joy, peace, guilt, release, love, hate, react, relate
