

Enough with all the lectures and gestures  
you make to act like people give a f\*\*k for one another  
Use, reuse, abuse, repeat  
Unending repetition, twisted humanity

Save me! I think I need it  
Last week I lost my head and didn't feel it  
Lend me eternity or tear my lungs from me  
It doesn't make a difference

I'm sick of living a lie  
Good f\*\*king riddance  
By now I'm barely alive  
If I died it wouldn't make a f\*\*king difference

Save me! I think I need it  
Last week I lost my head and didn't feel it  
Lend me eternity or tear my lungs from me  
It doesn't make a difference  
Mad at the world sick of my girl  
Try not to think they're all against me cause  
they push and they pull  
I'm all leaned out and my support beams are pillars of doubt  
I've been digging in  
I should be running right now

Save me, I think I need it  
Just last week I lost my head and didn't feel it
