

Destruction Of The Demented World

Trauma

Our world fall in blood and fear
Ruined are the civilizations of thousand years
After them came another cradles of holocaust
In them was the faith. but genocide
Of ravenous herds cut of the umbilical cord hope

The world is demented. this world is devastated
In it the bugs and breed
Which gnaw at millions of minds
And cause insane devastation

Let's turn away from it all
Raise our swords
And cut us off to find the truth
And the dreams of the eternal ones

Fight! let your mind defeat the gangerne
Let your muscles explode with the power of cosmic
rights

Proud with open visor
You will stand at the edge of the world
Which is on the decline over the ocean of innocents'
blood.
With arms spread widely you will fall into the abyss
To cleave the skull of bugs
With the sword of stars and the power of the eternal
ones.
And then create a new era.

Fight, you are the angel of fate
Fight, you are the demon of prophecy
Fight, you are the architect of thoughts.

The era will bring the faith that cures the minds
And gives the mother strenght.
The mother will give the live to those
Who stand at gods feet
And proudly they raise their hands.
Where deeds and thoughts of new era glitter.

Fight, you are the angel of fate
Fight, you are the demon of prophecy
Fight, you are the architect of thoughts.

I bless those who think!
