

On a farm just like Auschwitz  
There are cattle in mud pits  
Shit reeks like hell in the heat  
We feed on each other  
We slave, cheat and smother  
Maybe all we are is meat  
Empty heads rattle  
You hear the prattle  
The herd makes a meaningless noise  
The masses don't listen  
The money's the mission  
They think that we're only their toys  
You think that they love you  
Your naiveté is so sweet  
See how they treat you  
They just want to eat you  
I think you should know you're just meat  
Meat just meat just meat just meat  
Meat  
The cattle are rolling  
The bullshit is flowing  
They round up into the freight train  
They ride in trepidation till they get to the station  
There's a hammer bolt right to the brain  
You think that they love you  
Your naiveté is so sweet  
See how they treat you  
They just want to eat you  
I think you should know you're just meat  
Just another day, enough to be a little scarred  
Nothing penetrates, not even torture in the yard  
Yes, its like they say that we are only animals  
Got the need to feed cuz we are all just cannibals  
We feed on each other  
We lie, cheat, and smother  
In their eyes all we are is meat  
We feed on each other  
We steal, cheat and smother  
Maybe all we are is meat  
You think that they love you  
Your naiveté is so sweet  
See how they treat you  
They just want to eat you  
I think you should know you're just meat  
Meat just meat just meat just meat just meat just meat just meat just meat
