

Walk Away

Trauma

Don't come at me with your Molotov cocktail
We'll send you running, we're not weak and frail
This is a fight of a thousand years
No surrender

We're coming home all maimed and bloodstained
No time to waste, we're in the fight again
No end in sight, this is mass insanity
Hate forever, evermore

This is the way
The blood of vengeance running through my veins
Feel my pain
We're here to stay
The hatred in their heart, it still remains
Walk away

Don't tell us now you want peace and safety
See the news, watch the rockets fly again
The people shed, a thousand tears
Peace pretender

You blast your false propaganda here
The lies you tell, only hate and fear
A blackened heart like a cancer grows
Hate forever, evermore

This is the way
The blood of vengeance running through my veins
Feel my pain
They will betray
It's so impossible to break away
Kneel obey
We're here to stay
The hatred in their heart, it still remains
Walk away

A million faces on a blackened sea
Pray for them but it's too late for me
Final bell is ringing endlessly
For all a call to arms

Hey - bombs are falling
Hey - run away
Hey - sirens calling
Don't give up don't back down

Hey - children dying
Hey - everyday
Hey - women Crying
Won't forget, won't forgive

This is the way
The blood of vengeance running through my veins
Feel my pain
They will betray
It's so impossible to break away

Kneel obey
We're here to stay
The hatred in their heart, it still remains
Walk away
