

# Stop it

Travie McCoy

Look, I've been pushed around, I've been shouted down, but I never let that get to me  
'Cause I'd die before that day I ever let 'em get that victory  
I've been spat at, called this and that to the point I was ready to forfeit  
Now it's, "Hey, Travie, by the way, Travie," but that type of shit, you never forget  
I tell 'em, "Look"  
Check out what the hatred done done to me  
Roll out red carpet all under me  
Bad chicks, big checks all come to me  
From a Geneva crib to that arena, kid  
One mic, one stage, nothing between us, kid  
A lot of people talk, but never seen the kid  
Might seem like it, but they never made a scene this big  
And if you don't know, then you know now, I got it locked down like the Vatican  
In hindsight, I'm in a twilight, don't believe me, ask Rob Pattinson  
Shut your mouth and stand still like a mannequin  
Then go ahead and take this L 'cause I plan to win  
And I'm finna go deep, I'ma let 'em all sleep like they popped one too many Ambien, yeah

Stop it (Stop it)  
I got it (I got it)  
You not it (You not it)  
Get the hell on, go play somewhere and stop it (Fuck out my face)  
So stop it (So stop it)  
You know you not it  
Stop it (Stop it)  
I got it (I got it)  
You not it (You not it)  
So get the hell on, go play somewhere and stop it (Forgive me, Father, fuck out my face)  
Now stop it (For I know now what I knew, stop it)  
You know you not it (You know I'm lyin' like a sumbitch)

It's like no matter where I'm at or no matter where I go  
They like, "Travie, why's there so many females at your show?"  
I don't know (I don't know)  
Guess that's the way that I roll (I roll)  
Let's go (Let's go)  
Although I had to make it fast, you know I'd rather take it slow  
I only got a half an hour, girl, my bus about to go  
Let me know (Let me know)  
Are we hitting the road? (Come on, girl)  
Then let's go (Let's go)  
I'm hearing chitter chatter from the back all the way to the front door  
You know them haters gon' hate, it's just embedded in they soul  
Let it go (Let it go)  
'Cause they just miserable (Miserable)  
And I'm lovin' it

Stop it (Stop it)  
I got it (I got it)  
You not it (You not it)  
Get the hell on, go play somewhere and stop it (Fuck out my face)  
So stop it (So stop it)

You know you not it  
Stop it (Stop it)  
I got it (I got it)  
You not it (You not it)  
So get the hell on, go play somewhere and stop it (Fuck out my face)  
Now stop it (Stop it)  
You know you not it

Yeah, I'm finna go in like my daddy told me  
Brand new Travie, say goodbye to the old me  
Yeah, you talk a good one, now show me  
I'm Dumbledore, you a one trick pony  
Past years, it was all about my girlfriend  
Last year, I was caught up in the whirlwinds  
This year, I'ma change all that

Get the hell on, go play somewhere and stop it (Stop it)  
I got it (I got it)  
You not it (You not it)  
Get the hell on, go play somewhere and stop it (Fuck out my face)  
So stop it (So stop it)  
You know you not it  
Stop it (Stop it)  
I got it (I got it)  
You not it (You not it)  
So get the hell on, go play somewhere and stop it (Fuck out my face)  
Now stop it (Stop it)  
You know you not it

Oh, y'all thought this shit was over?
