

All Things \$ Can Do

Travis Barker

Some days I'm at the bottom of the ocean
I'm gettin' too deep and I don't know if
It gets any better when I see the light, light
The only thing that I want is a distraction
I just can't explain the way I'm actin'
I know it'll hit me when it all slows down, down

Scared to be all alone
Got no one else here
I gotta be lonely for the night
I'm stuck in my mind
But I want outside
So I'ma get it right like

Ooh
All the things that money can do
I was sad till I bought something new
I don't even care if I'm wasting my time
I don't even care like
Ooh ooh ooh

I don't take a break I'm always crashing
I'm scared of the things that wouldn't happen
Like what if the sun came shooting out the sky, sky

Scared to be all alone
Got no one else here
I gotta be lonely for the night
I'm stuck in my mind
But I want outside
So I'ma get it right like

Ooh
All the things that money can do
I was sad till I bought something new
I don't even care if I'm wasting my time
I don't even care like
Ooh ooh ooh
All the things that money can do
Why be sad I could buy something new
I don't even care if I'm losing my mind
I don't even care

Scared to be all alone
Got no one else here
I gotta be lonely for the night
I'm stuck in my mind
But I want outside
So I'ma get it right like

Ooh
All the things that money can do
I was sad till I bought something new
I don't even care if I'm wasting my time
I don't even care like
Ooh ooh ooh
All the things that money can do

Why be sad I could buy something new
I don't even care if I'm losing my mind
I don't even care
No I don't care
