

Jesus Your Name

Travis Cottrell

There is a name I call in my troubles
There is a word I speak to my fears
There is a power to silence my worries
Let it ring out for the whole world to hear

Jesus your name is light in the darkness
Hope for the hopeless, strength for the weak
O what a Savior, there's no one greater
Jesus your name I forever will sing

No other name can carry my burden
With just a word my Jericho falls
No other voice leads me to victory
Over my battle, over it all

Jesus your name is light in the darkness
Hope for the hopeless, strength for the weak
O what a Savior, there's no one greater
Jesus your name I forever will sing

Jesus, Jesus, how I trust him
How I've proved him o'er and o'er
Jesus, Jesus, precious Jesus
There is no other name I adore

O Jesus, Jesus, how I trust him
How I've proved him o'er and o'er
Jesus, Jesus, precious Jesus
There is no other name I adore

No other name can call down the heavens
No other word has the power to save
No other voice can speak resurrection
Roll back the stone and empty the grave, yeah

Jesus your name is light in the darkness
Hope for the hopeless, strength for the weak
O what a Savior, there's no one greater
Jesus your name I forever will sing
Jesus your name I forever will sing
O Jesus your name I forever will sing
