

# The Word of God Has Spoken

Travis Cottrell

In the beginning was the word and the word was God  
The word became flesh and dwelled among us  
And we have seen Your glory like the rising of the sun  
You have conquered all our darkness, the battle has been won

The word of God has spoken, we are changed forever  
Power of sin is broken, we are free  
We are running to salvation, we have been delivered  
The word of God has spoken, we are free

You're the lamp unto my feet, You light my path  
You're the only bread of life that always satisfies  
You're the sword that cuts us deep, exposing all our sin  
You're our healing and forgiveness, we are born again

The word of God has spoken, we are changed forever  
Power of sin is broken, we are free  
We are running to salvation, we have been delivered  
The word of God has spoken, we are free

From age to age Your word will stand, forever and amen  
From age to age Your word will stand, forever and amen

The word of God has spoken, we are changed forever  
Power of sin is broken, we are free  
We are running to salvation, we have been delivered  
The word of God has spoken, we are free

The word of God has spoken, we are changed forever  
Power of sin is broken, we are free  
We are running to salvation, we have been delivered  
The word of God has spoken, we are free

From age to age the word will stand, forever and amen  
From age to age the word will stand, forever and amen

We are free, we are free  
You will stand, Your word, Your word  
From age to age the word will stand, forever and amen
