

## Add Her To The List

Travis Denning

I'd unpark that Chevy in that dark dirt road ditch  
I'd uncall my daddy that son-of-a-bitch  
I'd leave that best friend black-eye-fist in my pocket  
That lost it all ball, I wouldn't drop it  
Oh, wish I could go back in time  
With what I know now that I've left it behind

I know I can't but if I could  
I'd make wrong right and make bad good  
Turn what I shouldn't into what I should  
What I didn't into what I did  
Unmake the mistakes ya make  
Unbreak all the things ya break  
Untake the wrong roads ya take  
When you're learnin' how to live  
There's a lot of things I'd go back and fix  
Add her to the list

I'd lift up that windshield wiper and swipe that note  
Before she could read what I never should've wrote  
I'd unkiss that out-of-town girl she never met  
You can't regret what you ain't done yet  
Wish I could have what's behind me be what's up ahead

I know I can't but if I could  
I'd make wrong right and make bad good  
Turn what I shouldn't into what I should  
What I didn't into what I did  
Unmake the mistakes ya make  
Unbreak all the things ya break  
Untake the wrong roads ya take  
When you're learnin' how to live  
There's a lot of things I'd go back and fix  
Add her to the list

Put her right on the top  
Of all the things I hate I lost

I know I can't but if I could  
I'd make wrong right and make bad good  
Turn what I shouldn't into what I should  
What I didn't into what I did  
Unmake the mistakes ya make  
Unbreak all the things ya break  
Untake the wrong roads ya take  
When you're learnin' how to live  
There's a lot of things I'd go back and fix  
There's a lot of swings I know I missed  
Add her to the list
