

Dirt Road Down

Travis Denning

Midnight Friday night you'd text me
Dads asleep baby come get me
A right a left and I was at your house
One Dirt road down
Second we pulled out that driveway
Never rolled one mile on a highway
Never had to talk ya in to a dust cloud
You were dirt road down

Ooh, we were kicked back slow lane dreamin'
Ooh, swear I can still hear you singin'

Lot about livin' and a little bout love
Smokin' Kenwoods in a high school truck
Console kiss on a two beer buzz
Lightin' that summer on up
I fell for a girl who loved the world
More than she loved this town
I was all of these used to be memories keepin' me dirt road down

Suitcase packed up in a hard top
Said goodbye to me and this map dot
Girl, I thought I could turn you around
Before you'd turn a dirt road down

Ooh, when a flames on fire burnin'
Ooh, it never gets easy learnin'

Lot about livin' and a little bout love
Smokin' Kenwoods in a high school truck
Console kiss on a two beer buzz
Lightin' that summer on up
I fell for a girl who loved the world
More than she loved this town
I was all of these used to be memories keepin' me dirt road down

If you're out there but round here is better than what you have
There's a dirt road down here that can take us right on back
I swear I can still hear you singing

Lot about livin' and a little bout love
Smokin' Kenwoods in a high school truck
Console kiss on a two beer buzz
Lightin' that summer on up
I fell for a girl who loved the world
More than she loved this town
I was all of these used to be memories keepin' me dirt road down
