

# All Things New

Travis Greene

Past has held you long enough  
But I am drawing you with love  
Here now, pouring out my spirit, receive it all  
Shame has followed long enough  
In this moment it's backing up  
Here now, pouring out my spirit, receive it all  
I'm making all things new  
Freeing you from you (Woo)  
Here comes freedom now

(Guilt has) Guilt has come to weigh you down  
(But where I am) But where I am, freedom is found  
(Here now) Here now, pouring out, my spirit, receive it all  
Fear brought chains to keep you bound  
(In this moment) In this moment, you're breaking out  
Here now, pouring out, my spirit, receive it all  
Making all things new, freeing you from you  
Here comes Freedom, I am making all things new  
This love enough, yeah, I am making all things new  
Here comes Freedom (Yeah), (I am) I am making all things new  
(This love) This love (enough) enough, I am making all things new

Freedom's here, it's breaking the back  
What's been holding you?  
Sing over us [?]  
No shame can stay, no charge remain  
I am making all things new  
Your guilty stains are washed away  
I am making all things new  
No shame can stay, no charge remain  
I am (Hey) making all things new  
Your guilty stains are washed away  
I am making all things new (Come on, receive it)  
(No shame) No shame can stay, no charge remain  
I am making all things new  
Your guilty stains are washed away (Yeah, yeah)  
(Sing) I am making all things new  
No shame can stay, no charge remain  
I am making all things new  
(Your guilty stains) Your guilty stains are washed away  
I am making all things new

Here comes freedom, (I am) I am making all things new  
This love enough, I am making all things new  
Here comes freedom, I am making all things new  
This love enough, I am making all things new  
And I'm good at it, love to do it, I am  
The past is gone, the future awaits  
Now the past is gone, and the future awaits  
The past is gone, the future awaits
