

# Everything Is Easy

Travis Greene

If you can walk on water  
Then you can walk on air  
If you're a living martyr  
Then you surpassed all flesh  
And if you can heal the blind  
Then you can see forever  
Tell the sun to shine  
Control the waging weather  
If you can take a little food  
And feed a lot of men  
And you can take a dying fool  
And give him life again  
If you can do all this  
Then this world belongs to you  
If you can still love me  
There is nothing that you can't do

Everything is easy for you  
Because you're God  
Everything is easy for you  
Because you're God

Everything is easy for you  
Because you're God  
Everything is easy for you  
Because you're God

If you can build a mountain  
It's big and it must move  
If you form the world on something  
You have nothing else to prove  
Give dust to living soul  
And paint the ground with plants  
He'll bath us with a glory  
Then disease don't stand a chance  
If you can live on finite time  
You may live the season  
If you turn water to wine  
Then hoper than meaning  
If you can do all this  
My life belongs to you  
If you can still love me  
There's nothing that you can't do

Everything is easy for you  
Because you're God  
Everything is easy for you  
Because you're God

Everything is easy for you  
Because you're God  
Everything is easy for you  
Because you're God

Because you're God  
You alone are the only God, You rule and reign  
You are God

You alone are the Jesus, To you we sing

Halleluyah, everything is easy for you  
Halleluyah, everything is easy for you

Just one thought  
Just one touch  
Just one look from you  
And my troubles are over  
Nothing is too hard for you  
By your stripes I am healed  
Through healing me is easy  
And changing me is easy  
Everything is easy for you
