

# I Remember

Travis Greene

Take this cup  
Drink of me  
Take this bread  
Think of me  
These were the words that You spoke to me  
So whenever I'm lonely  
I won't forget

I remember  
What You said  
I remember  
What You did  
You have made all things new  
God I, remember you  
I remember you

Take my yoke  
Come to me  
Take this rest I'm all You need  
These were the words that you  
Spoke to me  
So whenever I'm lonely  
I won't forget

I remember  
What You said  
I remember  
What You did  
You have made all things new  
God I, remember you  
I remember you

You said you're with me  
I know You won't leave  
You said you're with me  
I won't forget

You said you're with me  
I know You won't leave  
You said you're with me  
I won't forget

Goodness & mercy  
Is following me  
You said you're with me  
I won't forget

Goodness & mercy  
Is following me  
You said you're with me  
I won't forget

I remember what You said  
I remember what You promised  
I won't forget

I remember

What You said  
I remember  
What You did  
You have made all things new  
God I, remember you  
I remember you  
I remember you
