

## NEAR (FLOW)

Travis Greene

Closer than close  
There is no distance with us  
My heart is yours  
You are closer than close  
There is no distance with us  
I am yours

Closer than close  
There is no distance with us  
My heart is yours  
You are closer than close  
There is no distance with us  
I am yours and you are

Closer than close  
There is no distance with us  
My heart is yours  
You are closer than close  
There is no distance with us  
I am yours, you are close...

My name is son  
Your name is dad  
You have me in your hands  
I am your son  
You are my father  
I am yours, I am yours, I am

You branded me with your blood  
You branded me with your blood

You are closer than close  
There'll be no distance with us  
My heart is yours  
You are closer than close  
There'll be no distance with us  
I am yours and you are...

One worship away  
You're just one worship away  
One worship away

Closer than close  
There is no distance with us  
My heart is yours  
You are closer than close  
There is no distance with us  
I am yours and you are close
