

# CIRCUS MAXIMUS

Travis Scott

Unreal, what is this?  
God done gave me strength  
Are these the front row seats you wanted?  
We'll have our final moment

A walk-in attraction  
A walkin' distraction  
I'm naturally Black and  
Unnaturally breathin'  
Like a waist that is snatchin'  
Welcome to my world where it's packed in  
At the top of the tavern  
How I see when this happenin'  
All the real have been dabbled in  
All the, all the bumps and the grabbin'  
Ain't no cops here harassin'  
All the looks and the laughin'  
And outside, it got traffic  
'Cause inside, we wreak havoc  
Yeah, I know when this  
Yeah, I know when this drastic, where it's goin'  
When I back up emotions  
All this here, I'm controllin'  
When I'm back in the  
When I'm back in the streets, on my side, I'm patrollin'  
When I'm back in the, when I'm back in the (Ah)

I know our love is forsaken (Woo)  
But do you care if I was alive? (Whenever I'm back in the, ah)  
Or do you wanna be famous? (Woo, yeah)

I took the top off  
Like she took her lil' blouse off  
Too hard to go drop off  
You know that boy not soft  
I never would travel  
So I need me a time vault  
I been up in Cabo  
With my Bailey Osanto  
In this world, look around, yo  
It's just mano y mano  
I might still eat McDonald's  
But don't think I'm a Ronald  
I went back to my land  
Move like Moses, walkin' over seas  
In my state because the country  
Every part of it is part of me  
Tell your parliament, "Pardon me" (Woo)  
Off the saké, turned to Socrates (Woo)  
Heavy moments on the ground  
Feel it shapin' in the sound  
'Cause we ri-, 'cause we right in yo' house  
And you know that we down  
If yo' ass don't know nothin'  
Gotta know that it's time  
I'm excited to jump in  
So much that I'm flyin'

Put you right in the function  
Took you right off a vine  
Got this shit in a bind  
We got it, we got it now (Ah, woo)  
Whenever I'm duckin' it (Ah, woo)

I'm waiting on a let go  
I'm waiting on a let go  
I know myself, I know exactly how to make you special  
Go, collect your fame  
I'm waiting in an echo  
I'm waiting in an echo  
'Cause you keep callin' back, I thought I told you that we do not  
Sorry, I didn't let you out  
Out, woah-oh  
(Out)  
(Out, woah-oh)
