

# Moon Rock

Travis Scott

Been poppin'  
Foldin' this money, can't make a knot, how not?  
High on moon rock, jaw still locked  
After 12 we hit the gate and flood the spot  
Six of them are thots

No lights, this ice, it blings  
Closet the mall, we buy whole thing  
Big gas, it's lit, propane  
One hit, one touch, La Flame  
Know that you niggas never liked me  
Know that you niggas sit beside me tryna slide on my sidepiece  
Tint all through the whip, I hope it can hide me  
Tip all of the bitches, I don't want no funny business, don't want them to try me  
They wanna slide in my IV  
Ran 12 red lights, 12 behind me  
Paparazzi flashes wanna deprive me  
Hypnotized, I cannot let it blindside me, no  
I'ma live and die by my Migos  
Why I'm startin' to dance, what in the hell did you hand me?  
Took all of my niggas off Xans, put all of my bitches on Plan B
