

# STARGAZING

Travis Scott

Rollin', rollin', rollin', got me stargazin' (yeah)  
Sippin' on purp, feelin' like the Barre Baby (it's lit)  
Whatever I downed, it got me goin' crazy (yah)  
Psychedelics got me goin' crazy (alright)

I was hot as hell out in the heat (yeah, yeah)  
Then a storm came in and saved my life  
Head up to the sky, down on my knees (straight up)  
Out of nowhere, you came here to save the night  
In the nightttime (woo, yeah)

Rollin', rollin', rollin', got me stargazin' (roll)  
Psychedelics got me goin' crazy (oh no)  
Niggas femalin', they excellin' (yeah)  
Are they intellin'? (what you tellin'?)  
We propellin', up top with Ellen, uh (with the choppers)  
Kill the jealous with propane repellent  
Got me goin' crazy (it's lit)  
On tour, we'll tell 'em, we brought the section (gang)  
They keep on callin' up, it's getting hectic (brrt)  
Like we projected  
So we cut the plug, he's interjected (got me goin' crazy)

Rollin', rollin', rollin', got me stargazin' (yeah)  
Sippin' on purp, feelin' like the Barre Baby (it's lit)  
Whatever I downed, it got me goin' crazy (yah)  
Psychedelics got me goin' crazy (alright)

Got me goin' crazy

Okay, I been up for some days, I ain't got time to lay  
Just to drown out all these thoughts, I tried all kind of things  
If I take you to my past you will be traumatized  
Got a thousand kids outside that's tryna come alive  
'99, took AstroWorld, it had to relocate  
Told the dogs I'd bring it back, it was a seal of faith  
Before no car notes, baby girl, she played the tourist guide  
Got the keys into my city, now she know the rides  
Got new money, got new problems, got new enemies  
When you make it to the top, it's the amenities  
Packin' out Toyota like I'm in the league  
And it ain't a mosh pit if ain't no injuries  
I got 'em stage divin' out the nosebleeds (alright, alright, alright)  
And she hit that booger sugar 'til her nose bleed (alright, alright, alright)  
)  
Bounce that shit forever, she on both knees  
She was talkin' 'bout forever, got a whole week (alright, alright, alright)  
Plus she know my baby mama is a trophy  
She be throwing up them B's, feel like we both bleed  
She keep my dick jumpin' up, feel like I'm Moby  
I'm way too gold for this beef, feel like I'm Kobe, yeah

This right here is astronomical  
I see you picked up all my ways, I feel responsible  
They tryna say that all my problems is improbable  
They keep itching at my spirit, I'm diabolical  
Ya feel me?
