

# Never Get Away From Me

Travis Tritt

I was a real cassanova in my home town never really thought about settling down  
Years until you came around it's been a few years but i remember it well i was a  
Rowdy no gooder you were hotter than hell i spent all my time hot on your trail  
You could have run to the mountains you could have sailed across the clear blue  
Sea i knew from the start i couldnt let you get away from me

Well your momma and your daddie they didn't approve they told me i was trash and  
I was born to lose  
But that didn't phase me i was gonna have you..so i begged and ive pleaded  
Something ive never done sure as tomorrow has a rising sun there was no mistake  
Hunnie you were the one....

You could have run to the mountains you could have sailed across the clear blue  
Sea i one things for sure you would never get away from me

Sweetest things in life take you by suprise like the heaven i see lookin in  
Your eyes though you werent sure how an outlaw love would be i made up my mind  
Not to let you get away from me

As we get a lil closer to our rockin chairs i think back on the good life we  
Have shared and how our love has grown down through the years so snugle up to  
Me baby and turn out the lights there is nowhere i wanna be on this earth but  
Here to tonite then lyin in your arms holding you tight as time rolls by one  
Things clear to see i would've been a fool to let you get away from me

You could have run to the mountains you could have sailed across the clear blue  
Sea but i would've been a fool to let you get away from me
