

# Alive

Travis

I can hear you cursing under your breath  
Talking shit while walking, what a talent to possess  
And how you're, how you're feeling could be anybody's guess  
So count your blessings carefully  
My darling, save your prayers

We are alive  
We are alive  
And thank God there was an angel, not a devil by your side  
We are alive  
We are alive  
And as long as we are breathing, we can keep this dream alight  
Na na-na, hey hey  
Bye, bye, bye, bye, bye, bye, bye, bye, bye, bye

What's the point in wallowing in regret  
What's the use in worrying before the course is set  
There's always time, please don't forget

We are alive  
We are alive  
And thank God there was an angel, not a devil by your side  
We are alive  
We are alive  
And as long as we are breathing, we can keep this dream alight  
Na na-na, hey hey  
Bye, bye, bye, bye, bye, bye, bye, bye, bye, bye  
Hey hey  
Bye, bye, bye, bye, bye, bye, bye, bye, bye, bye

We are alive  
We are alive  
And thank God there was an angel, not a devil by your side  
We are alive  
We are alive  
And as long as we are breathing, we can keep this dream alight  
Na na-na
