

## Perfect Heaven Space

Travis

In my perfect heaven space  
There's a picture of you  
To think of all the time I've wasted  
Not looking at you

Answering the question  
Before it's been asked  
The answer's in the question  
I hope you don't ask

In my perfect heaven space  
There's an answer for you  
And on my heart I wear a sleeve  
That you knitted from me  
And you just wanna pull that thread  
And unravel me

Answering the question  
Before it's been asked  
The answer's in the question  
I hope you don't ask

On my heart I wear a sleeve  
That you knitted from me

In my perfect heaven space  
There's a memory of you  
To think of all the ghosts I faced  
Just remembering you

Answering the question  
Before it's been asked  
The answer's in the question  
I hope you don't ask

In my perfect heaven space  
There's an answer for you
