

Warning Sign

Travis

In the middle of the night I hear you
Talking in your sleep the same old story
All I know it's not me, you've been talking to
All the wishes, all the joy and wonder
Sleeping with the fishes six feet under
All I want
Can't be done,
Locked without a key
Ohhh, where you going now?

Don't let your heart run out on me
Don't set the horses free
We never laid it on the line
No time
No warning sign

In the middle of the day I find you
Turning round the tables and turning
Off your mind in rewind
You can't find a silent night
All the paper lying on the ground
Burning pages and those spinning heads
Is something wrong
In their lives?
We need paradise
Oohh, where you going wrong?

Don't let your heart run out on me
Don't set the horses free
We never laid it on the line
No time
No warning sign

Where you going wrong?
Where you going wrong?
Where you going wrong?
Where you going wrong?

Where you going wrong?
Where you going wrong?
Where you going wrong?
Where you going?

Don't let your heart run out on me
Don't set the horses free
We never laid it on the line
No time
No warning sign
No warning sign
