

## Waving at the Window

Travis

This is no rehearsal, this is the take  
Promises you once kept are gonna break  
I don't wanna say goodbye, I don't wanna say hello  
I don't wanna see you waving at the window

All the days without you, I'm gonna wake  
All the plans without me, you're gonna make  
Give it another chance, give it another go  
Don't wanna see you waving at the window

Oh, I'll try and tell you all the reasons why  
Was outta line, cross my heart and hope to die  
And so we go, holding onto things we know  
Hanging out to dry, spread our wings and fly

This is no rehearsal, this is the take  
Promises you once kept are gonna break  
I'm gonna take you high but I'm gonna leave you low  
I'm not gonna see you waving at the window  
Don't wanna see you waving at the window  
I'm not gonna leave you waving at the window
