Where Is The Love?

Outside in Songs we've shared We don't care Where is the love Now we regret nothing yet Don't forget We must get some love

Now I'm not saying love is gone But I'm afraid that everytime I read the paper Watch the TV There's not a lot of love anymore Or could it be that simple Or could it be that bold

Now I'm not saying love is blind But I'm afraid that everytime I read the paper Or watch the TV There's not a lot of love anymore Or could it be that simple Or could it be that bold

Outside in Songs we've shared We don't care Where oh where is the love Travis
