

You Bring Me Down

Travis

There's nothing I can find, there's nothing
There's nothing here at all
And even if I open up
And wrote it on the wall
There's an old generation
In the middle of the night
And the whole town watching
And I know the reason why

And you bring me down
Like a ton of bricks
You cut through the crowd
In your x-ray specs
You can't be sure
But I know you're warm
You bring me down
Like a thunder storm

And I'm never gonna let it go
I'm never gonna change
And you know I'd hand it over to you
But I don't even know your name
And I hope that I will never leave
And see the world this way
So you wrapped all ??
And never going again

And then you bring me down
Like a ton of bricks
You cut through the crowd
In your x-ray specs
You can't be sure
I know you're warm
Baby you bring me down
To earth

I'm not in love
Ooh, I'm not in love
Ooh, I'm not in love
Ooh, I'm not
I'm not
I'm not

You bring me down
Like a ton of bricks
You cut through the crowd
In your x-ray specs
And you can't be sure
But you know you're right ??
Baby you bring me down to earth

You bring me down
Like a ton of bricks
You carry your crown
Like a crucifix
I'll never stop
