Hello hello hello

Where you've been all my life

I've been all alone

I guess I'm all alone like an island in the crowd

No matter how hard I try, I just feel it's empty

Everywhere I go, I'm wildly looking for

Something without end

I think I've had enough don't wanna be alone

Where are you I need you

Don't say it's an accident

Without you, everything's a lie

Why did you show up now

I'm like hello hello hello

Where you've been all my life

Yeah yeah yeah yeah

Where you've been all my life

Hello hello hello

Where you've been all my life

I don't wanna go back

All alone in loneliness

Please say it to me

Tell me hello again

Fizzled out, and the hollow

Draw the rainbow of life

Pass by the dark that rain has left

Get into the morning called you

After spending my past where I rode a lonely wave

At every moment, say hello and hello

Goodbye my tears

Goodbye loneliness

Now my heart starts beating, it's like pump pump

Don't say it's an accident

Without you, everything's a lie

Why did you show up now

I'm like hello hello hello

Where you've been all my life

Yeah yeah yeah yeah

Where you've been all my life

Hello hello hello

Where you've been all my life

Whoa oh oh oh oh oh like a miracle  
If I meet you  
I don't mind being burned I've been waiting  
I want the love that beats my heart  
A girl I can risk my life for
