7Chill, go!

I dance like 2Pac on the beat
All eyes on me, set it to my tempo, come with us
Throw away the bitterness and get into new vibe
I'll make it sweet, I'm Willy Wonka
The root overflow for a reason, I'm confident
My ancestors are one time, I live in the next room, mob
Uh, uh, uh
"Troublemaker" wanted to be a dragon while looking at the sun
Raise your cursors, what a good boy

It appears like a flash of lightning
Take care of everything, filthy rats
I'm a star who flipped over on the stage with confidence
Our company is so hip that we can't stop laughing

Three idiots, three of us get together, trio
Three idiots, three of us get together, hangover
Three idiots, three of us get together, no way home
Our masterpieces

It's gonna explode, volcano
It's gonna flare out, volcano (Yeah)
H-I-P H-O-P
High in the sky, shoot farther away
Say woah
Say woah

We play amongst ourselves, left on read, left on read
Freaky, freaky, dance on the beat, you're driving me crazy
Let's create a generation of YG, new wave
Reminds me of new kids with different bone idle behaviors
I'm still hungry, I'm not satisfied with this
Skip out everything that's not delicious

Even if I make money, I try hard, my ambition is to reach the top
Open your eyes and see who wears the crown

I'm trembling while holding the microphone
An amazing life of being stylish
Triple humble, is this the three of us' moto right?
Let's sweat, feel my guts, our night doesn't end

Three idiots, three of us get together, trio
Three idiots, three of us get together, hangover
Three idiots, three of us get together, no way home
Our masterpieces (Ow)

It's gonna explode, volcano (Oh yeah)
It's gonna flare out, volcano (What?)
H-I-P H-O-P
High in the sky, shoot farther away
Say woah
Say woah

Melt it down to the other side of the world
Who wants to play with me? (Hands up)
Melt it down to the other side of the world
Who wants to play with me? Hands up
We've never seen a party like ours before
Sing along, say la-la
