

You Don't Need Money

Treat Her Right

You don't need lipstick to burn me when we kiss
Your lips are like searchlights - they never miss
You don't need lipstick to leave your mark
Your lips are like the cool mist on the water front
When we kiss

I like the way you look, I like your face
There's no one that I know that could take your place
You don't need a monkey wrench to make a flower unfold
You don't need money much, or so I've been told

You don't need money,
You don't need money,
You don't need money to love.

You know you don't need money,
You don't need money,
You don't need money to love.

You don't need lipstick to leave your mark
Your lips are like the cool fire of the branding iron
You don't need a monkey wrench to make a flower unfold
You don't need money much, or so I've been told

You know you don't need money,
You don't need money,
You don't need money to love.

You don't need money,
You don't need money,
You don't need money to love.

You don't need money,
You don't need money,
You don't need money to love.

You don't need money,
You don't need money,
You don't need money to love.
