

# Alien Earthlings

Treat

We've seen the scars, the tears like an ocean  
The soulless grin of the powers that be  
We've heard the cries, sad, numb emotions  
that never felt a spirit free

Why pay to live on a planet you're born on  
where all mistakes play on repeat  
To get out alive is singin' the same song  
The choice is yours, we come in peace

We will never dumb down  
We're the alien earthlings  
Raised up in a world of our own  
Star bound in unity we belong

The time has come, a fight for survival  
Die on your feet or live on your knees  
To end the game, the downward spiral  
and heal your hearts, unchain your dreams

We will never dumb down...

Be the one you wanna meet  
One love, all love
