

## Do Your Own Stunts

Treat

You don't need no medicine  
to tell you how you're feeling  
No escape from within  
is gonna keep your heart beating

You are the seed, a miltion stars,  
the future and the past  
You hold the key, the world is ours  
So raise your head  
if you wanna make a change

You just gotta do your own stunts  
Don't be afraid anymore.  
You just gotta break the prisons,  
keep the vultures away from your door  
There's no other one to follow  
who can build a new tomorrow  
You just gotta do your own stunts

You were born to lead the dance  
but you're running likes deer in the headlight  
It's the end of innocence  
Walking thru the days of twilight

It's all we have, it's all we need  
When money turns to fear and hate  
This sacred rock, we crashed upon  
Can shake it off  
with yet another twist of fate

You just gotta do your own stunts...

When everthings fallin', it's yours to take  
even if somethings gotta break  
The love you withhold  
is the pain you carry on and on

You just gotta do your own stunts...
