

# Ghost of Graceland

Treat

Can you hear your mother tongue  
The sound, the feel, the rhythm  
Or do you kiss the hidden hand

The broken promises  
on the road to freedom  
Where is the law of the land

The closer we get to the bone  
the harder they come  
and the harder they fall

Do you feel the Ghost of Graceland  
Do you see the writing on the wall  
The call  
He's back in the building  
no more angels are gonna fall  
At all

Can you brave the perfect storm  
in a ship that's torn to pieces  
Swing like the king without a crown

In time we will make the phoenix rise  
from the ashes of hell to paradise

Do you feel the Ghost of Graceland  
Do you see the writing on the wall  
The call  
He's back in the building  
no more angels are gonna fall  
At all

Walls are fallin', eyes are openin'  
Keep on shining, white lightning

Do you feel the Ghost of Graceland  
Do you see the writing on the wall  
The call  
He's back in the building  
no more angels are gonna fall  
At all

Do you feel the Ghost of Graceland  
Do you see the writing on the wall  
The call  
He's back in the building  
no more angels are gonna fall  
At all
