

One Way To Glory

Treat

I've been to hell and back again
Never thought that I could win
I was far to young
To know where to go
I remember father said
You have to fight and keep your head
You gonna find it out someday
Don't waste away

'Cause I know it's never
Gonna last forever
So let's go together
In this race against the time

There's only one way to glory
A long way to go
One way to glory
One way to love

Some will follow, some will lead
Satisfaction guaranteed
You have to show them all
How things are meant to be
I guess that time will only tell
When you'll find your wishing well
Try to find the key
And break the magic spell

'Cause I know it's never
Gonna last forever
So let's go together
In this race against the time

There's only one way to glory
A long way to go
One way to glory
One way to love

One way to glory
A long way to go
One way to glory
One way to love

I just talk about you and me
That's the way it's gotta be
I ain't lying to anyone
All I wanna be is someone

One way to glory
A long way to go
One way to glory
One way to love

One way to glory
A long way to go
One way to glory
One way to love

One way to glory
There's one way, one way
One way to glory
One way to love
