

I remember what my father said  
the day he paid the piper  
You gotta free your mind  
but don't lose your head  
It takes a road to be a rider

The more you want it the less you have - you know  
and the hardest part is the art of lettin' go

Whatever they say -  
don't you know it's just a paper tiger  
Don't you know it's just a phantom in your mind  
Take a look at all the ties that bind you - from  
behind

So keep movin on - my wayward son  
see, the method to their madness  
is a broken trail, a blood stained gun  
and no way out of darkness

Hear the callin' - keep the demons down  
Hate is ruling, but love is all around

Whatever they say -  
don't you know it's just a paper tiger  
Don't you know it's just a phantom in your mind  
Take a look at all the ties that bind you - from  
behind

Don't you know it's just a paper tiger  
Fear is nothing but a castle in the sand  
And a heart, that can break like china - in your hand  
In your hand  
In your hand

Whatever they say -  
don't you know it's just a paper tiger  
Don't you know it's just a phantom in your mind  
Take a look at all the ties that bind you - from  
behind

Don't you know it's just a paper tiger  
Fear is nothing but a castle in the sand  
And a heart, that can break like china - in your hand  
Paper tiger  
Paper tiger
