

Riptide

Treat

I see the shore, I'm on to know
How to embrace the undertow
The vicious thoughts, the taste for blood
Give me break before the flood

It's such a long ride to get from your dark side
Into the open wide, riding on a riptide
It's not hard to see that nobody rides for free
Even the world collides, riding on a riptide
I lost my life to save my soul
Some broken hearts, some broken bones
Just need a shoal to keep me warm
Take a stride and brave the storm

It's such a long ride to get from your dark side
Into the open wide, riding on a riptide
It's not hard to see that nobody rides for free
Even the world collides, riding on a riptide

It's such a long ride to get from your dark side
Into the open wide, riding on a riptide
It's not hard to see that nobody rides for free
Even the world collides, riding on a riptide

Riptide! Riptide!
Riptide!
