

## To the End of Love

Treat

You're the sun where the ground is frozen  
And the promise a breath away  
I know this is my own horizon  
But I hear every word you say

Like a voice from above  
Follow me to the end of love  
Listen, lo and behold  
To the call and the truth untold  
In every storm you still the ocean  
And save all lost at sea  
With every thought and road I've chosen  
I stand in flame when you speak to me

Like a voice from above (from above)  
Follow me to the end of love  
Listen, lo and behold (and behold)  
To the call and the truth untold  
Like a voice from above (from above)  
Follow me to the end of love  
Listen, lo and behold (and behold)

To the call and the truth untold

To the end, to the end, to the end of love  
To the end, to the end, to the end of love

Like a voice from above (from above)  
Follow me to the end of love  
Listen, lo and behold (and behold)  
To the call and the truth untold  
Like a voice from above (from above)  
Follow me to the end of love  
Listen, lo and behold (and behold)  
To the call and the truth untold  
Follow me to the end of love  
Follow me to the end of love

"And that in the goodness of time, all peoples will come to live together in a peace guaranteed by the binding force of mutual respect and love."
