

## In Your Way

Treble Charger

What I heard yesterday  
does not disturb me now  
Its nothing much to speak of much less say  
theres something wrong I know it  
what I saw yesterday  
set my teeth on edge  
what I could bide before was no more  
than a reason ahead  
what would you like to say  
its all been done its all been done  
youll find nothing in your way  
its all been done its all been done  
what I knew yesterday  
seemed enough at the time  
should've guessed the way you left and didnt mind  
that I meant to hurt you  
what would you like to say  
its all been done its all been done  
youll find nothing in your way  
its all been done its all been done
