

## Still Small Voice

Tree63

Did You just tell me what to do?  
Is someone speaking - is that You?  
Almost believed these truths were truthless  
Guess I've been feeling used and useless  
Do You really love me like they say You love me?

Then You take my hand and You hold it tight  
And You tell me it's all going to be all right  
And You whisper something into my ear  
It's a still small voice and it draws me near...

Didn't You rage through the fields  
Consuming every enemy?  
Is there one as strong and mighty  
Who with one word, commands as gently?  
Holy God, I fear You - do You want me near You?
