I am someone who got up again
I am someone unshakable
I have seen the earth spinning 'round
And now I understand

They used to keep you on the outside Now, you're the only survivor You have spoken with the angels And your face still shines just like mine

We're the glorious ones, the glorious ones Forever in the sun, we're the glorious ones

And tonight we are the strangers In the darkness underground We have eternal things in our hands And tomorrow we rise, so wise

We're the glorious ones, the glorious ones Forever in the sun, we're the glorious ones

We're the glorious ones, the glorious ones Forever in the sun, we're the glorious ones

We're the glorious ones, the glorious ones Forever in the sun, we're the glorious ones
