

## If Not for You

Tremonti

Turn and face me  
Could you always be  
Forever at my side  
Fill this heart of mine

Guilty again  
If it were not for you then I'd be dead  
Then I'd be dead

Grace me once more  
Oh let me feel assured  
Turn my way again  
Come to life, my friend

Guilty again  
If it were not for you then I'd be dead  
So run while you can  
I will follow for now until the end  
Until the end

Lift me up from the floor  
Oh from the bottom  
Make me just thirst for more  
For I've forgotten  
Take me far from this place  
We'll run forever  
Leave here without a trace

Guilty again  
If it were not for you then I'd be dead  
So run while you can  
I will follow from now until the end  
Until the end  
(Until the end)
