

## Leave It Alone

Tremonti

Throw me aside and I'll leave it alone  
So I can bury my own  
I tear at this pain, this darkness I've known  
This time it has won  
Retreat inside until the threat is gone  
Oh how we've buried our way  
Throw me aside and I'll leave it alone

Once I feel it  
Once it's in my head, I know  
This time I'm leaving  
For all the times that you did before

Throw me aside and just lead us astray  
But may the rest of our days, somehow reveal that it was all ju  
st a waste  
And how could we have known  
And where in the world has our good fortune gone?  
We've got to find it some way  
And how in the world did we end up alone

Once I feel it  
Once it's in my head, I know  
This time I'm leaving  
For all the times that you did before

Once I feel it  
When all trust is dead, I know  
This time I'm leaving  
For all the wrong that you did before

Once I feel it  
Once it's in my head, I know  
This time I'm leaving  
For all the times that you did before

Once I feel it  
When all trust is dead, I know  
This time I'm leaving  
For all the wrong that you did before
