

Let That Be Us

Tremonti

Back on my feet
I'll never be the same
The way I feel
I'll never slip again

I'm far from lost
But I'm far on my way
I'll never forget
I'll never be the same
I'll never be the same

Long live the day
Carry the truth, walk with me
Let that be us, let that be us
All left behind
All but erased, out of mind
Let that be us, let that be us

That part of me
Was always looking down
Now, rest in peace
It's so much clearer now

Feels right again
Won't let it go to waste
It seems so easy
I'll never be the same
I'll never be the same

Long live the day
Carry the truth, walk with me
Let that be us, let that be us
All left behind
All but erased, out of mind
Let that be us, let that be us

Search for peace of mind
Who knows what you might find
Always go in peace
Always walk with me

Long live the day
Carry the truth, walk with me
Let that be us, let that be us
All left behind
All but erased, out of mind
Let that be us, let that be us
