

Make It Hurt

Tremonti

I'll stand, rise up, and be first
Conform and the pain will only be worse
Disgraced, abandoned again
A sacrifice, not if, oh, but when
Turn back, obey them no more
Now unchained you rise like before
I've been waiting my whole life
Just to set it right

And I'm gonna make it hurt

Come with me
Turn your back or you'll never leave
Play your part, set it right from the start
Play the fool, it's the last thing you'll ever do
Strength within to gain the glory again

Claim your strength again

Salvation, it won't take long
But I can make it all on my own
The truth, oh it will be mine
And I'm gonna lay it all on the line
I've seen, known all the while
Now I'm gonna break, torment and defile
Break free the moment is now
And I'm gonna show you how

And I'm gonna make it hurt

Come with me
Turn your back or you'll never leave
Play your part, set it right from the start
Play the fool, it's the last thing you'll ever do
Strength within to gain the glory again

Claim your strength again

Brought to this place, gathered by law
Bridled and chained, obey just because
Our march is long, oh what have we done
Our downfall awaits, our trust our last mistake

Come with me
Turn your back or you'll never leave
Play the part, set it right from the start
Play the fool, it's the last thing you'll ever do
Strength within to gain the glory again

And I'm gonna make it hurt
