

# Marching in Time

Tremonti

So many lives marching in time  
Move to the beat of the old and the blind  
Under the skin, hollow within  
Sift through the ashes we've all left behind

Oh please promise me  
I'd do anything

I'd do anything

Don't let this cold world change you  
Don't ever go astray  
And don't you fail to keep on giving  
Don't fail to show your strength, no  
Like so many lives marching in time

Never let go, hold onto hope  
Know in your heart that you'll never be alone  
I know you will see if you believe  
The more that you give, then the less you'll ever need

Oh please promise me  
You're my everything

Don't let this cold world change you  
Don't ever go astray  
And don't you fail to keep on giving  
Don't fail to show your strength, no  
Like so many lives marching in time

Don't ever forget  
This world's not claimed you yet  
And all you've come to be  
So go in peace

So am I  
I'm worn and I'm tired  
Take your life  
And go and thrive

Don't let this cold world change you  
Don't ever go astray  
And don't you fail to keep on giving  
Don't ever lose your strength, no

Don't let this cold world change you  
Don't ever go astray  
And don't you fail to keep on giving  
Don't fail to show your strength, no
