

# The Bottom

Tremonti

Take the life  
Breathe it in  
Take a moment to live  
Find your way  
Go to war  
Take your life and be more  
Take your life and be more

From the bottom, don't forget your heart  
It's where you finally find who you really are  
Take the boundaries and erase them all  
Or you'll finally find just how hard you'll fall

Live the truth  
Pave the way  
Find your calling today  
Stand aside  
Rest assured  
It takes a lifetime to be more  
It takes a lifetime to be more, yeah

From the bottom, don't forget your heart  
It's where you finally find who you really are  
Take the boundaries and erase them all  
Or you'll finally find just how hard you'll fall

Will it now to be, shed a light to see  
Find it on your own, or face the world alone  
Call it what it is, only when you win  
Live the truth instead, for glory lies ahead

From the bottom, don't forget your heart  
It's where you finally find who you really are  
Take the boundaries and erase them all  
Or you'll finally find just how hard you'll fall
