

# The Mother, The Earth and I

Tremonti

Walking in step with the earth  
As nations rise and fall  
I'll take each breath with the tides  
The mother, the earth and I

The Mother Earth and I  
Forever at peace  
The Mother Earth and I  
Together are we

Today I turn to the earth  
Farewell to man and his pride  
Today I look to the skies  
The mother, the earth and I

The Mother Earth and I  
Forever at peace  
The Mother Earth and I  
Together are we  
The Mother Earth and I  
The solace in me

Oh how right it is, and I will embrace it always  
No matter what you praise or what you believe  
From grave to glory go, the mother of life and decay  
No matter what you praise, oh do you believe?

The Mother Earth and I  
Forever at peace  
The Mother Earth and I  
Together are we  
The Mother Earth and I  
The solace in me  
The Mother Earth and I
