

## Follow Suit

Trent Dabbs

soul on lock down  
from open to closing  
leave the fresh air to paper planes  
the better life now  
it must be hiding  
far away from the same old thing

yeah, i got a long list of enemies  
what's another gonna do to me?  
i don't care if you don't approve  
don't wanna hear about what you think  
do your best to keep the best of me  
nothing in my blood is ever gonna follow suit  
follow suit

the cloth i'm cut from  
don't take too kindly  
to being held down in this restrain  
it's under my skin  
it's so unnerving  
it kicks around in this tiny cage

yeah, i got a long list of enemies  
what's another gonna do to me?  
i don't care if you don't approve  
don't wanna hear about what you think  
do your best to keep the best of me  
nothing in my blood is ever gonna follow suit  
ever gonna follow suit
